West Essex Graphics Installs Second MacDermid Platemaking System

Fairfield, NJ – September 20, 2005: West Essex Graphics, Fairfield, NJ, has installed its second MacDermid Printing Solutions 5280 Platemaking System. Ron Rex, Operations Manager of West Essex said, “with the company’s steady growth, we needed to increase our plate making capacity with the installation of a second system. With the flexographic industry’s demand for digital plates on the rise, the additional equipment also allows us to expand our digital manufacturing capabilities”.

Founded in 1949, West Essex Graphics is a full service prepress facility with locations in New Jersey and Indiana offering both analog and digital photopolymer plates.

###

Founded in 1922, MacDermid, Inc. is a global specialty chemicals company serving the diversified needs of the Electronics, Industrial, Offshore and Printing industries. It employs over 2,500 people and is headquartered in Denver, CO.
